Consumer Notes:
As we enter summer, weíre again seeing that DVD is here is stay (this month, another four, including the first of the VIZ discs). Get used to it... itís only a matter of time before these things become commonplace (in case you havenít noticed, the new players are getting cheaper and better as well!). There are a few really interesting things in June... weíve got the first volume of VIZís Darkstalkers (distributed by Pioneer), so weíll see if the fighting game anime genre is dead yet; from Urban Vision we FINALLY get the Space Cobra movie (made famous by Matthew Sweet in a music video). Speaking of music video - thereís that new Satanika short -this item is of particular interest to all you comic fans out there... but we donít think we need to tell you that. Have a great month!

Find out the best values for anime! Divide the number in brackets (the
running time) by the retail price. This gives you the cost per minute for the title!

JEFFíS PICK(S) OF THE MONTH

Iíd say the winner this time around is Evangelion 12 ... itís some of the best that the series has to offer (the last volume is a disappointment).
I believe, in fact, that this volume isnít even out in Japan yet!
